

Christians in Calderdale Schools

How may we help your secondary school?

Transition Program

We recognise the value of a smooth transition between Year 6 & 7. We have a great program called "It's Your Move" which is a national resource. We offer a package to Primary and Secondary Schools of assemblies, lessons and a free student booklet.

Assemblies/Collective Worship

We are available to support schools with assemblies/collective worship. We deliver imaginative and thought provoking presentations on both Christianity and other topics such as British Values where requested.

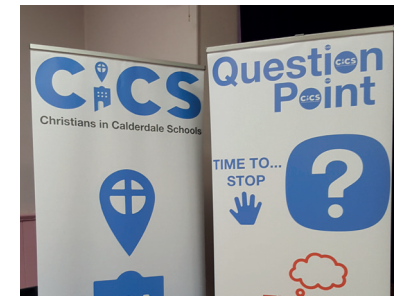

Post-16

We also work with 6th form departments and colleges and have a range of options including provision of pastoral and mentoring support and help in preparation for university and working life.

SMSC Support

Question Point is an informal voluntary lunch-time activity. It consists of an SMSC question. Students are invited to respond to an open ended question in survey form. Example questions used have been "What gives you hope in life?", "Who are your role models", "What is true forgiveness?"

RS and PHSE Lesson Support

Our Secondary team are experts at tailored and interactive Religious Studies and PHSE lesson delivery and workshops. Several schools already take us up on these. Contact us for a fuller list of lesson offers.

Mentoring

We offer an informal short term tailored intervention program. These can be through either a group format or a One to One session, depending on the needs of the young people referred to us. We ask schools to make a contribution for this specialist service.

Christians in Calderdale Schools

Who we are

Our experienced team offers a wide range of activity to support our Borough's schools. We work in both Primary and Secondary Schools and our workers and trustees represent a broad range of Christian denominations. Most of what we offer comes free of charge to schools and colleges. Please invite us for a meeting with you to discuss how we can help you more.
